

APEX AI
SOLUTIONS

*Driven by **Curiosity**,
Powered by Innovation*

Mission Statement

To build intelligent, scalable, and accessible AI-driven platforms that empower businesses to automate processes, unlock insights, and make smarter decisions with data, design, and innovation.

www.apexai.company

Technology Stack

Full-Stack Development

React, Node.js, Next.JS, Flask, FastAPI, Streamlit

AI/ML Frameworks

TensorFlow, PyTorch, Scikit-learn, OpenCV

NLP & Vision Models

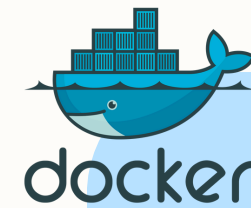

Transformers (Hugging Face), CNNs

Reinforcement Learning

DQN, PPO, custom control agents

MLOps/DevOps

Docker, GitHub Actions, MLflow, AWS

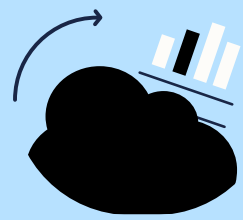

Data Engineering

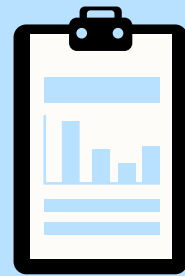

ETL pipelines, web scraping (Selenium, BeautifulSoup)

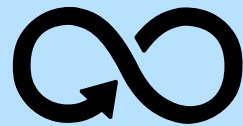

We Build AI-Powered Platforms That Automate,
Analyze & Accelerate Growth and Solve Real
Problems

Custom AI Solutions

**Automation & Data
Engineering**

**MLOps & Deployment
Pipelines**

**End-to-End Web
Applications**

What We Can **Build** for You

web platforms with integrated ML models

computer vision systems

web scrappers

AI Agents

IoT Intelligent Systems

ETL Pipelines

real-time data dashboards

task automations

Auto-generated reports

data entry pipelines

chatbots
